

Respondus  
**LockDown**  
Browser™

## Student Quick Start guide (Blackboard Edition)

### WHAT IS RESPONDUS LOCKDOWN BROWSER?

Respondus LockDown Browser is a secure browser for taking tests in Blackboard. It prevents you from printing, copying, going to another URL, or accessing other applications during a test. If a Blackboard test requires that Respondus LockDown Browser be used, you will not be able to take the test with a standard web browser.

Respondus LockDown Browser should only be used for taking Blackboard tests. It should not be used in other areas of Blackboard.

### INSTALLING RESPONDUS LOCKDOWN BROWSER

If Respondus LockDown Browser has already been installed, skip to the next section. To download and install Respondus LockDown Browser, follow these steps:

Windows computers:

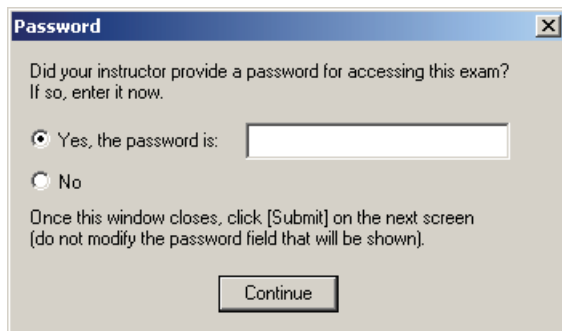

- Here is the link to download the software:  
<http://www.respondus.com/lockdown/information.pl?ID=586840359>
- During the installation, select Yes if prompted to accept programs from Macrovision and Respondus.
- Follow the onscreen instructions to complete the install.

Macintosh computers:

- Be sure that OSX 10.3.9 or higher is being used (512K RAM minimum).
- Here is the link to download the software: <http://www.respondus.com/lockdown/information.pl?ID=586840359>
- During the installation, select Yes when prompted to run the Java application.
- Follow the onscreen instructions to complete the install.

## Taking a test

1. Close all programs, unless one is used to connect you to the Internet.
2. Locate the "LockDown Browser" shortcut on the desktop and double-click it. (For Macintosh users, launch LockDown Browser" from the Applications folder.)
3. If prompted to close a blocked program (e.g. screen capture, instant messaging) choose Yes when prompted.
4. Login to your Blackboard course.
5. Navigate to the test and select it.
6. A pop-up window will ask whether the instructor has required a password for the test.

- If a test password (such as the word "apple") is required by the instructor to start the test, select the *Yes* option, enter the password, and click the Continue button.
  - If the instructor did not set up the test with a password, the *No* option should be selected. Click the Continue button.
7. Regardless of the selection made in the previous step, Respondus LockDown Browser will automatically fill in a special password on the next screen. It's important that this password field isn't modified. Click the Submit button.

8. The test will then start. (Note, once a test has been started with Respondus LockDown Browser, you cannot exit until the "Submit" button is clicked.)
